Hi Dave,

As I said in my April 6 email, we are meeting with the Permanent Sewer Commission to go over it and discuss the entire order with them on Tuesday night.

We should be able to respond the following morning. At the least, I will update you by phone Wednesday morning.

Thanks for your patience.

Jim

Hi Jim,

I am writing as a follow-up to my email last week.

I would like you to send me draft language regarding the placeholder language for paragraph IV.9 that I included in the version I sent to you on March 17th. We are only looking for a couple of sentences that characterize the work that you are already planning to do. If you would like to talk about this section in more detail, please feel free to give me a call.

Most importantly, I want to keep the process moving forward. As a reminder, the version that you have is not for signature, as we need to review the resiliency language and assign a Docket number.

Thanks, Dave

Hi Jim,

Thanks for your email yesterday. To reiterate what I mentioned on the phone, the language we inserted regarding resiliency is primarily intended to capture the work the Town is already planning to do (and was discussed at our meeting). As we asked that the Town provide further details regarding the resiliency planning measures that you intend to undertake, we would like to review the language that you are proposing for Paragraph IV.9 before you sign the Order.

I'll also need to add a Docket number to the first page after we have a chance to review the Paragraph 9 language you propose.

Please let me know if you have any questions.

Thanks, Dave

Hi Dave,

I have spoken to the Town Manager on this and we have a meeting scheduled with the Permanent Sewer Commission on Tuesday April 19th specifically to discuss this Order and get their input and consent. I apologize for the delay in getting the signed Order returned to you.

Please let me know if there are any issues with this timing.

Thank you in advance for your help and understanding with this.

Regards.

Jim
